INTERNSHIP

Cubiksoft Technologies — *Apr 2025 – Sep 2025*

- Developed and maintained a web application using HTML, CSS, JavaScript, Bootstrap, Java, and MYSQL. Integrated MYSQL for back-end data management and RESTful APIs to fetch and render real-time data dynamically.

PROJECTS

Online Food Ordering System (Java, Spring Boot, MySQL, Bootstrap, HTML, CSS)

- Developed a full-stack web application that allows users to browse food items, add them to the cart, and place online orders. The system also includes an admin panel for managing categories, products, users, and order statuses.
- Designed and implemented the backend using Spring Boot and integrated it with a responsive frontend built using Thymeleaf templates. Managed database design, CRUD operations, and order workflow.
- Spring Boot provides a **lightweight, fast, and scalable backend** framework to build such a system efficiently.
